Secretariat

“APA Joint Conference with Foreign Ministers”
Tehran, 19 November 2007

Proposed Topics for General Debate

The Foreign Ministers and parliamentarians are invited to provide guidance and strategic thinking about the following two critical issues in their statements to the “APA Joint Conference with Foreign Ministers”:

- * Greater integration in Asia: shared objective, varied convictions. What is the right balance between efficiency/pace of moving forward and the realities on the ground?

- * Greater integration in Asia: the reinforcing role of the governments of the APA Member Parliaments. How can APA and their respective governments forge some kind of structured partnership to pave the way and work closer together?
